

Creative Age Publication & the Scential Spa Experience

## Welcome

For more than 8 years now Cuccio Naturale has striven to be top choice for spa professionals looking to enhance the spa experience.

Cuccio Naturale is dedicated to providing new innovative products and ingredients enhanced by natural extracts to spa owners and nail professionals. While we cultivate some old world Italian traditions and secrets, we maintain the high integrity that goes into making the products.

Cuccio Naturale has created a program to help guide professionals to increasing his/her revenue with an easy to use Marketing Plan. We have created 3 stand alone banners to make for a quick and easy enhancement to your menu, without costly printing charges.

One of the first steps to enhancing the spa experience is by incorporating the Signature Service Kits this allows professionals to preform numerous themed services. The second way to revamping your salon/spa is to add multi-levels of services to your menu. The third step is the new marketing program to retail the body butters in the salon/spa.

Furthermore, the Cuccio line was inspired to create niche services in the salon/spa to make for the ultimate unique pampering experience!
